

DIY

Home maintenance

For painting, maintenance and DIY, TENAX offers a range of fabrics and plastic films to protect floors, furniture and objects. Recommended at home, on terraces or courtyards, they can also be used in garages or cellars, to cover machinery and tools.

COAT FILM PLUS

High thickness protective film

Waterproof and transparent, it is used to protect garden furniture during the winter season. Useful as a protective film to cover any other surface during maintenance and DIY work or to protect articles stored in basements and attics from moisture and dust.

weight 220 g/m²

IR AIRPOP

Bubble wrap

Generally used to protect fragile objects from accidental damage, it is also useful to protect plants and shrubs from the cold, by wrapping it around the trunk or around the pot to shelter the roots.

PREPACK - Roll
1x5 m

DURABILITY UV TREATED

IR JOLLY

Clear drains

A very thick rhomboidal grid net which prevents gravel, leaves and twigs from blocking drains, basement windows and air vents.

IR LEVEX TUBE

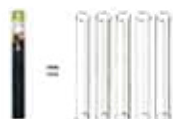

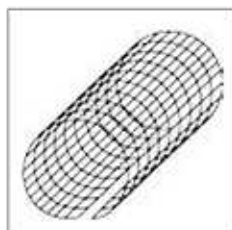

Clean gutters under trees

Tubular mesh resistant to atmospheric agents, it prevents leaves from blocking the gutters. It fits diameters of gutters from 12 to 15 cm, it is modular and does not require maintenance for many years: good savings in terms of time, labour and money.

- It does not rust or rot
- It stops birds nesting in the gutters
- It ensures perfect flow of rain water

PREPACK - 5 pieces
