EXTERNAL PAVING

Synthetic lawns

TENAX synthetic lawns will always stay perfectly green and luxuriant, without requiring its owner to mow, weed or water. A variety of types are available and are suitable for indoor or outdoor use, from decorating the edges of swimming pools, sprucing up or restoring a terrace or porch, to provide a solution for difficult areas of the garden to maintain. All made of plastic blades which are stitched onto a draining support, they are washable with water, do not need particular maintenance, and can be installed following simple instructions. They do not attract insects or mosquitoes or cause any allergies.

The reasons for choosing them

SYNTHETIC LAWNS
Video tutorial

- Neat and tidy always, everywhere
- Easy to lay
- Hard-wearing whatever the season
- No maintenance
- No more wasted water
- Improvement with sand infills
- Draining support
- Metal free
- Salt water proof
- Chlorine resistant

The answers to all your queries

- If a cigarette or hot cinders fall on it, **it does not catch fire**.
- If pets dirty the turf, **they are extremely simple to clean**.
- If weeds appear, **they know how to defend themselves**.
- When it rains **they do not rot**.
- If they get hot in the sun, **simply refresh them**.

TS1

Filtering fabric for synthetic lawns

140 g/m² non-woven, polypropylene fabric to promote drainage and water flow under the turf. High tensile strength and tear resistance, it maintains its drainage capacity in the long term. Excellent also in the construction of avenues as it separates the gravel from the ground beneath.
