

SCREENING

Synthetic hedges

TENAX synthetic hedges have multiple uses: an original screen for balconies; to renovate an old gate or to temporarily cover a fence while flowers or plants are growing. They perfectly imitate the natural product and are light and versatile: they are ideal to quickly and inexpensively decorate any corner where real greenery is not possible due to lack of soil or water.

DIVY X-TENS OSMANTHUS

3D extendable decorative trellis

An expandable trellis made of natural willow with synthetic osmanthus leaves. The natural effect makes it perfect for creating dividers on balconies or in the yard, or to screen stores, storage rooms or secondary entrances.

- Perfectly reproduces the look and colouration of a natural hedge.
- Full, lush and luxuriant leaves.
- Natural willow support structure.
- Beautiful to look at from every angle.
- Also as a design element.
