**TUBULAR NETS
FOR PROTECTION**

TUBULAR NETS FOR PROTECTION

Tubular nets for protection and flat nets for separation are highly versatile and durable nets. They are used for the protection of products and objects with sensitive surfaces during intermediate stages of production and shipping. Made with selected and recyclable raw materials, they are chemically inert when in contacts with oils and emulsifiers, and are reusable multiple times. Alongside a wide range of standard products available in rolls, TENAX offers customized solutions to meet specific needs: cuts and rolls to measure, colors to choice.

FEATURES AND ADVANTAGES

- Mono polymer products 100% recyclable (LDPE)
- Reusable for multiple work cycles
- Suitability for contact with oils and fats
- Elasticity and softness
- Quick and easy to use
- Customizable colors and sizes
- Wide range of diameters available

Elastic protection tubular nets are also available:

- With at least 30% regenerated LDPE, derived from post-consumer plastic
- In biodegradable and compostable plastic sourced from renewable sources

Product	TP 5	TP 10	TP 15	TP 20/15	TP 20	TP 45
Polymer	LDPE	LDPE	LDPE	LDPE	LDPE	LDPE
Colour	orange	violet	light blue	neutral	blue	white
Ø (mm)	7/15	10/20	15/30	20/50	25/50	35/80
Roll length (m)	500	500	200	200	250	300

Product	TP 50	TP 75	TP 95	TP 100	TP 140	TP 150
Polymer	LDPE	LDPE	LDPE	LDPE	LDPE	LDPE
Colour	yellow	brown	pink	red	ochre	orange
Ø (mm)	35/70	50/75	50/100	50/100	70/160	75/150
Roll length (m)	200	150	250	150	150	70

Product	TP 200	TP 210	TP220	TP 230
Polymer	LDPE	LDPE	LDPE	LDPE
Colour	green	black	white	dark blue
Ø (mm)	100/200	120/250	125/250	150/300
Roll length (m)	150	150	100	100

Product	PS 950	PS 1150	PS 1200
Polymer	LDPE	LDPE	LDPE
Colour	neutral	neutral	neutral
Ø (mm)	190/250	250/400	350/550
Roll length (m)	30	30	30

Product	TP 20 BIO	TP 100 BIO
Polymer	Biodegradable polymer	Biodegradable polymer
Colour	natural	natural
Ø utilizzo (mm)	25/50	50/100
Roll length (m)	150	200

Range of protective nets made of compostable and biodegradable plastic with proven absence of ecotoxic effects that does not release persistent microplastics and is partly obtained from renewable raw materials of plant origin. They contribute to providing concrete help in reducing environmental impact. Available in rolls or, on request, in pieces cut to size.
